Hei Elio, (This is just a GREAT result and should open you all markets!)

1. Truck Care.

The temporary results from the truck I mentioned last week show that the fuel consumption has been reduced by 15% (!!!). From 6,2 litres per 10km to 5,3 litres per 10km. The truck also had an oil leakage - about 1 litre per day. After the coating there is no oil leakage at all.

The truck is busy 6 days a week from early morning to late evening with transporting rocks out of a tunnel. The owner says he saves about €600 per week in diesel - €2 400 per month. He also saves a little fortune of oil every month. Attached is a photo of the exact truck.
